

SOPHISTICATED SOLARIUM

Twist Interior Design
Sandy LaMendola
twistinterior.com

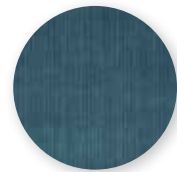

The homeowners requested an international flavor for the solarium in this historic renovation. Handmade floor tiles, in a hue similar to the original, are installed on the diagonal to add interest. The ceiling, painted a rich, spiced orange, offsets the green and contrasts with the sweeping view of the river valley below. The queen-sized daybed, covered in a custom cover of teal striae velvet, monk's bed coffee table, and Moroccan rug add exotic charm.
